

P-TECH Designation Renewal Application Assurances

The P-TECH designation renewal application must be signed by officials from the school district, institution of higher education (IHE), and a business/industry partner. The signatures must be from individuals who are authorized by their local board or organization to bind the applicant organization in a legally binding contractual agreement.

By signing the designation application, the district assures that it will:

- Meet all required design elements as outlined in the P-TECH Blueprint
- Work with the TEA assigned technical assistance provider during the school year to develop a plan to meet the outcomes-based measures

The authorized officials should review the designation application thoroughly prior to signing the application.

Enter the requested contact information below for the official.

Authorized School District or Charter Official
